

# Elementary Social Studies Homework Ideas

- ▶ Use the whole newspaper to find pictures or stories of five people who have different jobs. Paste each on paper and then write a description of their jobs as best you can. Include any training you think they had. Bring your project to class.
- ▶ Be artistic—make a collage of pictures from the newspaper of different kinds of jobs. Include words or advertisements, too. Bring your work to class.
- ▶ From the newspaper advertisements, cut out items you would like to buy. Now, add up the cost of all the items. Make a separate list of items you can afford now and items you will have to save for. Can you think of ways to work for the money you want? Bring your work to class.
- ▶ Choose one page from the newspaper and try to come up with how many different jobs were involved in creating that single page. Bring your list to class.
